Token economies. One form of contingency management is the token economy system. Token systems can be used in an individual or group format. Token systems have been shown to be successful with a diverse array of populations including those suffering from addiction, those with special needs, and delinquents. However, recent research questions the use of token systems with very young children.

Working with display screen equipment (DSE)

Technological unemployment is the loss of jobs caused by technological change. Such change typically includes the introduction of labour-saving "mechanical-muscle" machines or more efficient "mechanical-mind" processes (). Just as horses employed as prime movers were gradually made obsolete by the automobile, humans' jobs have also been affected throughout modern history.
