ELEVATIONS Elevations are drawings that show the front, rear, or side view of a building or structure. Sample elevation views are given in Figure 1-6,

ARCHITECTURAL SYMBOLS. LINE CONVENTIONS, AND MATERIAL

An architectural drawing or architect's drawing is a technical drawing of a building (or building project) that falls within the definition of architecture. Architectural drawings are used by architects and others for a number of purposes: to develop a design idea into a coherent proposal, to communicate ideas and concepts, to convince clients of the merits of a design, to enable a building ...

1. When other faces of precast concrete unit are exposed, include Samples illustrating workmanship, color, and texture of backup concrete as well as facing concrete.

SECTION 034500 - PRECAST ARCHITECTURAL CONCRETE

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.

Much has been written over many decades about the structure and properties of starch. As technology develops, the capacity to understand in more depth the structure of starch granules and how this complex organisation controls functionality develops in parallel.

Starch's composition, fine structure and architecture

Have you encountered work breakdown structures and wondered how they can help in your project management efforts? A work breakdown structure (WBS) is a visual tool for defining and tracking a project deliverable and all the small components needed to create it.
