atomic physics today pdf
About Chinese Physical Society. CPS is an academic organization under the leadership of the China Association for Science and Technology. Its purpose is to promote the development and popularization of physics.

Scitation is home to the most influential news, comment
In nuclear physics and nuclear chemistry, nuclear fission is either a nuclear reaction or a radioactive decay process in which the nucleus of an atom splits into smaller parts (lighter nuclei).The fission process often produces free neutrons and gamma photons, and releases a very large amount of energy even by the energetic standards of radioactive decay. ...

Nuclear fission - Wikipedia
In the physical sciences, subatomic particles are particles much smaller than atoms. The two types of subatomic particles are: elementary particles, which according to current theories are not made of other particles; and composite particles. Particle physics and nuclear physics study these particles and how they interact. The idea of a particle underwent serious rethinking when experiments ...
