The formula for survival in resuscitation describes educational efficiency and local implementation as key determinants in survival after cardiac arrest. Current educational offerings in the form of standardized online and face-to-face courses are falling short, with providers demonstrating a decay of skills over time. This translates to suboptimal clinical care and poor survival outcomes from ...

Dane Wigington GeoengineeringWatch.org. Climate engineering and weather warfare are ultimately one in the same. The ongoing atmospheric experiments taking place in our skies have a long history with many objectives and agendas being carried out, the equation is complex. If we are to have any chance of exposing and halting catastrophic global climate engineering operations, we must first have a ...
