science laboratory experiences for students. Most other states nationally, as well as most nations globally, have long been proponents of science laboratory experiences. While the National Research Council's (2005) report provides important information about science laboratory experiences occurring in

Science Laboratory Experiences of High School Students

rush. This pace may benefit from one or more group members coming to the lab on days and at times beyond scheduled class meetings. Due to the use of the laboratory for the instruction of other classes, the possible days and times will be limited and require advanced scheduling. All of this may seem daunting. Exploration involves the unknown.
