The Block Exemption Regulation is an exemption in a business line or industry, which debar organizations in the industry from some business activities in order to create competition. The regulation is highly known in the automobile industry due to the effect caused by the Block Exemption Regulation (BER) from the European Commission. BER has changed the automobile industry in the last decade.

Block Exemption Regulation - Wikipedia

A block of the periodic table is a set of chemical elements predominantly characterised by having their highest energy electrons in the same atomic orbital type. The term appears to have been first used by Charles Janet. Each block is named after its characteristic orbital; thus, the blocks are: s-block; p-block; d-block
